School Contributions and Charges 2017

The State Government and the Department of Education permit the school to seek payment of Contributions and Charges for each student enrolled at the school. The Contributions provide the school with funds to supplement our own resources in purchasing materials and resources valuable in the education of students enrolled at the school.

The Contribution and Charges schedules have been endorsed by the School Board and are published here to inform parents of anticipated costs for 2017.

The estimated costs provided are set as an upper limit and will not exceed the amount shown. If a particular event does not transpire within the school year, no charges for that event will apply.
